Attention: Valued Nu-West Customers

Re: Changes at Nu-West Construction Products

We have told many of you recently that Nu-West Construction Products was in the process of getting stronger in order to service our valued customers even better. Today, we are happy to announce that the **Nu-West** team has now joined the premier Canadian organization in the distribution and fabrication of commercial and industrial insulation and speciality construction products.

Nu-West remains dedicated to its Western Canadian and Prairies market, joining the **Impro** banner in the same sectors of activity in Ontario, the **Nadeau** banner in Quebec and the **Scotia Insulations** banner in Atlantic Canada, all stronger players established in their respective markets since 1995, 1962 and 1974 respectively. Together, we form the only Coast-to-Coast Canadian organization that has the strength to offer competitively top solutions and products to its customers while keeping the decision making close to its customers.

We are very excited about the future. We thank you for your continued support and want to assure you of our complete dedication in making you, our customer, very successful.

Best regards,

Darryl Schmidt and the **Nu-West** team.
Vice President & General Manager
